

Nyack Community Garden 2020 Committees

As members of a community garden, we are all obligated to contribute to its maintenance and beauty. All gardeners are required to join at least one committee and provide at least six hours of service. On your application, list your top three choices for committee assignment. Some committees require availability at specific times.

NEW THIS YEAR: In addition to committee work, there will be two work weekends this season, and members will be required to attend one of them.
